Chapter 1

Introduction

This is an example report template for ECSE 325, prepared in LaTeX environment. You may also use MS Word or LibreOffice to prepare your documents, however, the final report must be submitted as PDF format. The title page must include the lab number, name and student ID of the students, as well as the group number. The report must consist of an introduction in which the objectives of the lab is discussed from the perspective of the student(s). Follow-up of the introduction part is detailed at the end of each lab, titled as "Writeup of Lab Report". All figures and tables must be clearly visible.
